WORK EXPERIENCE

2017 - Present

Junior Software Developer
FCP Technologies Ltd

Using **AngularJS** and **Angular 6**, I'm working within a team of four developers.
I've built projects using Three.js and WebGL inside a HTML5 canvas.
Used **Angular 6** to make a call recording management application.
Created a dynamic dashboard that uses Chart.js and custom built graphs.
Building phone number list and outbound IVR managers.

2015 - 2017

Website Developer
OTON GLASS (otonglass.jp)

Volunteering as part of an energetic design and branding team. I was responsible for improving and maintaining the OTON GLASS website.
I translated this project from Japanese to English using Angular JS.

2013 - 2017

ESL, Tokyo, Japan
Native Teacher

Teaching a private English curriculum to Japanese students.

2011 - 2012

Web Design
Freelance

I assisted website design
Created layouts in Photoshop and organised color schemes while choosing effective typefaces.
